An NCOPE Accredited O&P residency program is overseen by the program director. The program director can request you be added if you meet all of the requirements to serve as an O&P residency mentor including but not limited to completing formalized O&P education, being at least 3 years post certification, and having completed the required Online Residency Program Development Course modules. The program director submits this request using the Residency Faculty Add-On Request form. For detailed information about the standards, roles/responsibilities, and requirements to be a mentor, please visit the Director/Mentor Eligibility, Roles, and Responsibilities page.
