Although residency programs can open the application anytime between ~ Sept 1 of each calendar year through July of the subsequent year, applications are being made visible to candidates earlier each year. It is not uncommon for dozens of applications to be visible in the Fall (Oct-Dec) for positions that will be starting in the Spring or Summer of the subsequent year. If you would like assistance with the configuration of the application and making it visible to applicants, please reach out to the contacts listed on the OPRESCAS Team page by CLICKING HERE.
